## COVID-19 AND TRADE

The COVID-19 outbreak is affecting all parts of the supply chain. The extended factory closures and the slowdown of goods movement in China and other Asian countries in February due to Lunar New Year and COVID-19 have resulted in shipping lines needing to cancel some sailings. Please join the Foreign Trade Association (FTA) as we partner with the U.S. Department of Homeland Security to hear from U.S. Customs & Border Protection Director of Field Operations, Carlos Martel, and U.S. Coast Guard Los Angeles Sector Commander, Monica Rochester as they update members of the trade community on the next steps and what to expect.
